

# SCCA Survivorship Clinic

Empowered Living After Cancer

The SCCA Survivorship Clinic offers treatment, support and education after cancer treatment is complete.

To schedule a clinic appointment call (206) 606-1024

Cancer and its treatment can result in long-lasting or late-onset effects. The SCCA Survivorship Clinic addresses various problems cancer survivors may face after therapy ends. These may include but are not limited to:

- Pain
- Fatigue
- Fear of recurrence
- Living with uncertainty
- Neuropathy
- Bone loss
- Sexual dysfunction
- Cardiovascular risks
- Memory issues
- Lymphedema
- Future cancer risk

During your visit, our medical staff will talk with you about how to assess and manage late complications or issues you may be experiencing, and develop a plan to support your future health.

## FAQs

### How can this clinic benefit me?

- The knowledge gained from reviewing your cancer treatment can help you understand your future health risks. We have experts available to assist and educate you regarding your risks and how to minimize them. We can also address current physical or social survivorship concerns you may be facing as a result of your treatment.

### Will my insurance cover this visit?

- Most insurance plans consider this a necessary visit for individuals who have received treatment for cancer. Prior to coming in for an appointment, we recommend that you check with your insurance company to review your coverage and any out of pocket expenses.

### What can I expect from my Survivorship Clinic appointment?

- We provide an individualized Treatment Summary and Survivorship Care Plan. This includes an evaluation and information on the prevention of the late effects of your cancer and cancer treatment recommendations and resources for dealing with long-term effects and suggestions for healthy lifestyle behaviors. Copies of the treatment summary, survivorship care plan, and any recommendations made during the clinic appointment are shared with your health care team, including your oncologist and primary care provider. We will work in partnership with these providers to make sure your survivorship needs are being met. We do not provide testing for recurrence of your cancer; this care will continue to be provided by your oncologist.

### How many appointments will I have in the Survivorship Clinic?

- The number of appointments you will have depends on your preference. Your unique situation will be discussed with you during your initial appointment. You may have one appointment, an annual appointment, or an appointment every few years.
