Skin Oncology

Phone: (206) 606-1062
Fax: (206) 606-7156
Email: pccskinonc@seattlecca.org

Resources for referring providers

To refer your patient for oncology care at Seattle Cancer Care Alliance (SCCA) or UW Medical Center (UWMC)

Call (206) 606-1024 or (toll free) (855) 557-0555, or the intake phone number listed on the following oncology service list.

To submit a Physician Referral Form on SCCA's website, visit: www.SeattleCCA.org/referrals

All oncology referrals will be triaged through Patient Intake to the requested oncology service. Your patient will be contacted for scheduling an appointment at SCCA or UWMC, depending on the respective clinic location for the physician(s) they will see.

MedCon: Doc-to-doc consultation

Call (toll free) (800) 326-5300 (recommended for quickest response) or email medcon@uw.edu.

Special operators are available 24 hours/day to take providers' calls and link them with an appropriate SCCA/UW faculty physician with expertise in any medical specialty. MedCon is a free education and referral service of University of Washington School of Medicine and its primary teaching hospitals. All physicians who practice at SCCA are Faculty of UW and are available for a consult via MedCon.

U-Link: Medical record access

Go to the [U-Link webpage](#) to learn more and download the enrollment form.

U-Link is a secure internet portal that allows referring healthcare practitioners and their support staff to access medical records of patients — both those whom refer to us and those whom we refer to. U-Link provides access to the records of patients at UW Medical Center (UWMC), Harborview Medical Center (HMC), and Seattle Cancer Care Alliance (SCCA). If you have questions call (206) 606-6266 or email efrederick@seattlecca.org.

Medical education for providers

Visit www.SeattleCCA.org/cme for information on CME accredited in-person symposiums.

Visit www.SeattleCCA.org/webinars-for-providers to view a variety of medical education webinars.
