COVID-19
Primary Screening Survey – Wellness Center

1. Do you have any of the following symptoms?

- Fever
- Cough
- Sore throat
- Shortness of breath
- Wheezing
- Congestion (stuffy nose)
- Runny nose
- Muscle aches and pains

- If No symptoms -> STOP - No further action required. Patient may wait in the waiting area. Give the patient an ‘I’ve been screened’ sticker.

If Yes, they have symptoms – Instruct the patient to put on a mask (make sure it covers their mouth and nose) and ask for further details of symptoms.

2. Are you experiencing the following – Productive cough, fever or difficulty breathing?

- If No to question 2 -> STOP - No further action required. Patient may wait in the waiting area. Give the patient an ‘I’ve been screened’ sticker.

- If Yes to question 2, complete the following steps immediately:
  - Make sure the patient is wearing their mask correctly
  - Reschedule patient’s appointment to a later time when patient no longer symptomatic
  - Notify RNs, RN Manager, and Patient’s provider team
